Work Experience

Full Stack Developer , GoIT
Kyiv, Ukraine • Remote • December 2023 - April 2024

- **Implemented user registration and authentication:** Designed and integrated secure and efficient user sign-up and sign-in processes, significantly improving the user experience.
- **Developed password recovery functionality:** Created a robust password recovery system, enabling users to easily reset their passwords if forgotten, thereby reducing support queries and improving user satisfaction.
- **Email verification:** Ensured account security and authenticity by implementing email verification, which helped prevent fraudulent activities.
- **Implemented multilingual support:** Enabled the application to support multiple languages, catering to a diverse user base and expanding accessibility.

Tech Stack – React, Redux Toolkit, Express, Node.js, MongoDB, Cloudinary, Vite, i18next

Front End Developer , Andersen Lab
Warsaw, Poland • Remote • June 2022 - December 2023

- **Developed the front-end part of the application:** Created a seamless and user-friendly interface for a remote banking customer service web application.
- **Refactored code:** Improved code quality and performance, resulting in a more maintainable and efficient codebase.
- **Conducted code reviews:** Ensured code quality and adherence to best practices, which enhanced overall team productivity.
- **Created comprehensive documentation:** Authored Workflow, Introduction, Installation guides, and a Styleguide, which streamlined onboarding and ensured consistency across the project.
- **Supported new team members:** Provided guidance on front-end development issues, accelerating their integration and effectiveness.
- **Distributed tasks:** Efficiently allocated tasks among team members, ensuring balanced workloads and timely project delivery.
- **Defined scope and timelines:** Established clear project scopes and timelines, which helped in setting realistic expectations and achieving milestones.
- **Collaborated in cross-functional discussions:** Participated in meetings with QA, BA, UI/UX Designers, and stakeholders, contributing to holistic project development and aligning technical solutions with business needs.
- **Engaged in SCRUM practices:** Took part in grooming, retrospectives, planning, and daily stand-ups, promoting agile methodologies and continuous improvement.
- **Conducted unit testing:** Wrote comprehensive unit tests to ensure the reliability and stability of individual components, enhancing the overall quality and maintainability of the codebase.

Tech Stack – React, React testing library, Redux Toolkit, TypeScript, Redux, HTML, CSS, Figma, Jira, Scrum, Agile

JavaScript Developer , Infopulse
Liptokaria, Greece • Remote • March 2021 - August 2021

- **Collaborated with small businesses:** Enhanced online presence by creating custom static websites and advising on hosting solutions.
- **Tailored design:** Aligned layout with the client's business, and audience, creating visually captivating designs that effectively convey their message and enhance brand image.
- **Enhanced usability:** Ensured smooth performance on desktops, tablets, and smartphones, improving user experience and accessibility.

Tech Stack – JavaScript, CSS, HTML, JQuery, Adobe Photoshop
